DLT TAPE

DLTtape™ 1/2" Tape Cartridges from Maxell...

DLTtape III

DLTtape III XT

DLTtape IV

DLT CleaningTape

FEATURES & BENEFITS

High Capacity media

Up to 80.0 GB with data compression.

Durable & Reliable media

Maxell DLT media is rated at 500,000 to 1,000,000 tape passes even under the worst case temperature and humidity conditions thanks to Maxell's patented Ceramic Coated Metal Particles. A minimum head life expectancy of 15,000 hours can be expected with Maxell's ultra smooth coating process. With sophisticated error detection and correction, absolute data integrity is achieved using Maxell media.

High Performance media

Maxell DLT media withstands high speed streaming speeds of up to 150 ips, and with data transfer rates up to 12.0 MB/second, files are rapidly retrieved and video images can be easily stored.

Applications

Perfect for Hierarchical Storage Management applications, backing up LAN servers, workstations and midrange systems. Ideal for DVD mastering too!
